Iraqi Defense Forces MI-17V5 Simulator

Description:

Procure a Mi-17 Level 5 Flight Training Device (FTD) for the Iraqi Air Force. Actual FAA certification will not be required. Operator and maintenance manuals, written in English, and spare parts to support the device for one full year beginning at the Ready for Training (RFT) date, will be procured concurrent with the FTD. Contractor Logistics Support (CLS), for both maintenance and supply, will also be procured for a period of one year. Delivery of the device directly to Iraq will be accomplished by commercial transportation at contractor's expense. Options for one additional device and one additional year of CLS will be part of the initial contract.
